NOTES:

With the exception of Goldsboro and Hendersonville, the net proceeds of the tax are distributed to the appropriate body's finance officer. In some instances, a limit is placed on this cost. The usual limit is 3% to 5%. In Rutherford County, the limit is 10%. Goldsboro and Hendersonville define "net proceeds" as "gross proceeds."

The General Assembly authorized Wake County to impose a 6% occupancy tax in 1991 (S.L. 1991-594). The enactment of the tax under this authority repeals the authority of the county or a unit of local government in Wake County to enact an occupancy tax under any other local act. Wake County has enacted this tax. Therefore, the authority for the county to enact a 3% occupancy tax under S.L. 1985-850 and the authority of any units of local government in Wake County have been repealed.

A "merchant's discount" is the discount allowed a merchant for collecting a room occupancy tax, and it must be the same as the discount the State allows the merchant for collecting State sales and use tax.

Over the past several years, there has been a greater effort to make the occupancy taxes uniform. In 1997, the General Assembly enacted uniform municipal and county administrative provisions for occupancy tax legislation – G.S. 153A-155 and G.S. 160A-215. These provisions provide uniformity in the areas of levy, administration, collection, repeal, and penalties. The House Finance Committee has also appointed a subcommittee on occupancy taxes. The subcommittee has typically adhered to the guidelines set out in the North Carolina Travel and Tourism Coalition's policy statement for legislation authorizing local occupancy taxes. Many of the principles contained in its statement are similar to the ones established by the House Finance subcommittee in 1993. Based upon this work, the House Finance Committee looks for the inclusion of the following uniform provisions in the occupancy tax bills it considers:

- **Rate** - The county tax rate cannot exceed 6% and the city tax rate, when combined with the county rate, cannot exceed 6%.
- **Use** - At least two-thirds of the proceeds must be used to promote travel and tourism and the remainder must be used for tourism-related expenditures. In the 2001 Regular session, the scope of the use provisions was expanded to include beach nourishment. In 2004, the statutory administrative provisions were amended to prohibit the proceeds of a room occupancy tax from being used directly or indirectly for the development or construction of a hotel or another transient lodging facility.
- **Definitions** -
 - *Net proceeds* - Gross proceeds less the costs to the city/county of administering and collecting the tax, as determined by the finance officer, not to exceed 3% of the first \$500,000 of gross proceeds collected each year and 1% of the remaining gross receipts collected each year.

- *Promote travel and tourism* – To advertise or market an area or activity, publish and distribute pamphlets and other materials, conduct market research, or engage in similar promotional activities that attract tourists or business travelers to the area; the term includes administrative expenses incurred in engaging in these activities.
- *Tourism-related expenditures* – Expenditures that, in the judgment of the Tourism Development Authority, are designed to increase the use of lodging facilities, meeting facilities, and convention facilities in a county by attracting tourists or business travelers to the city/county. The term includes tourism-related capital expenditures.
- *Beach nourishment* – The placement of sand, from other sand sources, on a beach or dune by mechanical means and other associated activities that are in conformity with the North Carolina Coastal Management Program along the North Carolina shorelines and connecting inlets for the purpose of widening the beach to benefit public recreational use and mitigating damage and erosion from storms to inland property. The term includes expenditures for the following:
 - a. Costs directly associated with qualifying for projects either contracted through the U.S. Army Corps of Engineers or otherwise permitted by all appropriate federal and State agencies;
 - b. The nonfederal share of the cost required to construct these projects;
 - c. The costs associated with providing enhanced public beach access; and
 - d. The costs of associated non-hardening activities such as the planting of vegetation, the building of dunes, and the placement of sand fences.

Administration - The net revenues must be administered by a local tourism promotion agency, typically referred to as a “Tourism Development Authority,” that has the authority to determine how the tax proceeds will be used, is created by a local ordinance, and at least ½ of the members must be currently active in the promotion of travel and tourism in the taxing district and 1/3 of the members must be affiliated with organizations that collect the tax.

Cost of Collecting - A county or city may retain from the proceeds its actual costs of collecting the tax, not to exceed 3% of the first \$500,000 collected each year plus 1% of the remainder collected each year.

ⁱ S.L. 2010-31, Sec. 31.6 amended G.S. 153A-155 and G.S. 160A-215 to require the occupancy tax base to be the same as the sales tax base. Therefore, a local occupancy tax act may not exempt an accommodation that is taxable under G.S. 105-164.4(a)(3) nor may it tax an accommodation that is not taxable under G.S. 105-164.4(a)(3). Several local acts had provisions that conflicted with the 2010 general law change, but they were not changed at that time. Section 60 of S.L. 2013-414 made technical changes to those conflicting provisions in order to bring those local acts into conformity with the general law. The conflicting provisions typically involved exemptions for the entities listed below. For a more detailed explanation of how each of these entities is treated under the general law, see document entitled *Local Occupancy Tax Base Technical Change* available from the NCGA Research Division.

- A business that offers to rent fewer than five units
- Summer camps
- Religious organizations

-
- Educational organizations
 - Charitable, benevolent, and other nonprofit organizations
 - Campgrounds/camp sites
